NOTICE OF PRIVACY PRACTICES

THIS NOTICE DESCRIBES HOW MEDICAL INFORMATION ABOUT YOU MAY BE USED AND DISCLOSED AND HOW YOU CAN GET ACCESS TO THIS INFORMATION

PLEASE READ IT CAREFULLY

The Health Insurance Portability & Accountability Act of 1996 ("HIPAA") is a Federal program that requests that all medical records and other individually identifiable health information used or disclosed by us in any form, whether electronically, on paper, or orally are kept properly confidential. This Act gives you, the patient, the right to understand and control how your personal health information ("PHI") is used. HIPAA provides penalties for covered entities that misuse personal health information.

As required by HIPAA, we prepared this explanation of how we are to maintain the privacy of your health information and how we may disclose your personal information.

We may use and disclose your medical records only for each of the following purposes: treatment, payment and health care operation.

- Treatment means providing, coordinating, or managing health care and related services by one or more healthcare providers. An example of this would include referring you to a retina specialist.
- Payment means such activities as obtaining reimbursement for services, confirming coverage, billing or collections activities, and utilization review. An example of this would include sending your insurance company a bill for your visit and/or verifying coverage prior to a surgery.
- Health Care Operations include business aspects of running our practice, such as conducting quality assessments and improving activities, auditing functions, cost management analysis, and customer service. An example of this would be new patient survey cards.
- The practice may also disclose your PHI for law enforcement and other legitimate reasons although we shall do our best to assure its continued confidentiality to the extent possible.

We may also create and distribute de-identified health information by removing all reference to individually identifiable information.

We may contact you, by phone or in writing, to provide appointment reminders or information about treatment alternatives or other health-related benefits and services, in addition to other fundraising communications, that may be of interest to you. You do have the right to "opt out" with respect to receiving fundraising communications from us.

The following use and disclosures of PHI will only be made pursuant to us receiving a written authorization from you:
